

ALBIN ABRAHAM

.NET Developer | Full-Stack Engineer

Korattikudiyil (H), Pambra P.O, Irulam | +91 7909231123 | albinabrahamaa4@gmail.com | GitHub: Albinabrahamaa4 | LinkedIn: [albin-abraham](#)

PROFESSIONAL SUMMARY

.NET Developer with 3+ years of experience designing and delivering scalable enterprise web applications using ASP.NET MVC, ASP.NET Core, C#, SQL Server, and JavaScript. Experienced in backend API development, database optimization, ERP systems, payment gateway integration, and Agile project management. Currently expanding expertise in Angular and modern full-stack development. Proven ability to self-learn new technologies and contribute to cross-functional teams in fast-paced environments.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, VB.NET

Front-End Technologies: HTML5, CSS3, Bootstrap 5, jQuery, AngularJS, Three.js, ReactJs
Chrome Developer Tools

Back-End Technologies: ASP.NET MVC, ASP.NET Core, ASP.NET Framework, VB.NET, Django (Python)

Databases: Microsoft SQL Server, MySQL, Entity Framework

Version Control: Git, GitHub, GitLab, SVN

Tools & IDEs: Visual Studio, SQL Server Management Studio (SSMS), Jira

Other: Razorpay Payment Gateway, SMS/Email Notification Integration, REST API, Real-Time Tracking

PROFESSIONAL EXPERIENCE

Software Engineer | Indus Motors Pvt. Ltd., Kerala

June 2025 – Present

Project: IndusGo ERP – Vehicle Rental Operations Platform

- Contributing to a large-scale ERP platform managing vehicle rental operations across web, mobile, and internal business systems.
- Developing and maintaining backend services using ASP.NET MVC, ASP.NET Core, C#, and SQL Server.
- Integrated Razorpay payment gateway for secure online transactions and automated refund processing.
- Implemented real-time vehicle tracking services using location-based data integration.
- Built and maintained SMS/email notification systems for customer communication and alerts.
- Resolved production issues, performed root cause analysis, and implemented performance improvements.
- Supported RESTful API integrations ensuring smooth data flow across multiple platforms and services.

Software Developer | Tenwyn Media & Solutions (Techneurons Consulting Solutions)

August 2022 – May 2025

Project: CamaCloud – Enterprise Web Application (camacloud.com)

- Developed and maintained enterprise-level web applications using ASP.NET MVC (C#), VB.NET, JavaScript, and SQL Server.
- Built client-specific features and customizations for multiple county-level deployments in the US market.
- Performed code refactoring to improve maintainability, readability, and system performance.
- Designed and implemented new modules to enhance application functionality and user experience.

- Contributed to bug fixing, issue resolution, and maintaining high system uptime.

Project: Property Assessment Application – ATI

- Converted entire project SQL queries to C# Entity Framework, improving database efficiency and long-term maintainability.
- Performed full codebase conversion and refactoring, enhancing code quality and scalability.
- Developed multiple functional modules contributing to overall system performance and reliability.

Project: TodayAtCampus – Web Application

- Built a full web application using AngularJS, implementing MVC architecture, data binding, and client-side routing.
- Self-learned AngularJS independently, demonstrating strong adaptability and ability to quickly adopt new technologies.
- Integrated Three.js to deliver 3D interactive elements, improving user engagement and visual experience.
- Managed all development tasks via Jira in an Agile environment, including sprint planning, task tracking, and backlog management.

Python Full-Stack Intern | Soften Technologies

March 2022 – August 2022

- Developed full-stack web applications using Django (Python) and Microsoft SQL Server.
- Gained practical experience in backend development, database design, and MVC architecture.

Front-End Developer | House of Branding

September 2021 – February 2022

- Developed 20+ static and responsive websites using HTML5, CSS3, Bootstrap, and JavaScript.
- Ensured cross-device compatibility and improved user experience across desktop and mobile platforms.

EDUCATION

Bachelor of Computer Applications (BCA)

Glocal University | July 2019 – April 2021

CERTIFICATIONS

- Python Full-Stack Development – Soften Technologies
